PROFILE

I'm Eslam, working in web development and print media. I enjoy turning complex problems into simple, beautiful and intuitive designs.

My job is to build your website so that it is functional and user-friendly but at the same time attractive. Moreover, I add personal touch to your product and make sure that is eye-catching and easy to use. My aim is to bring across your message and identity in the most creative way. I created web design for many famous brand companies.

ADVANCED FINANCIAL DASHBOARD FOR PAYMENT UPDATES

SITE DESCRIPTION

The image showcases an advanced financial dashboard designed for tracking and updating payments. The dashboard features a modern design with dark tones and accents of purple and green, enhancing the clarity of the information. It includes various options for transferring money, displaying the current balance, and a bar chart illustrating monthly balance distributions. Additionally, it provides details on recent financial activities and upcoming payments, helping users efficiently monitor and manage their finances. This comprehensive interface enables users to quickly access important information and make informed financial decisions.

COMPREHENSIVE : WEBSITE FOR BUILDING DREAM "HOMES"

SITE DESCRIPTION

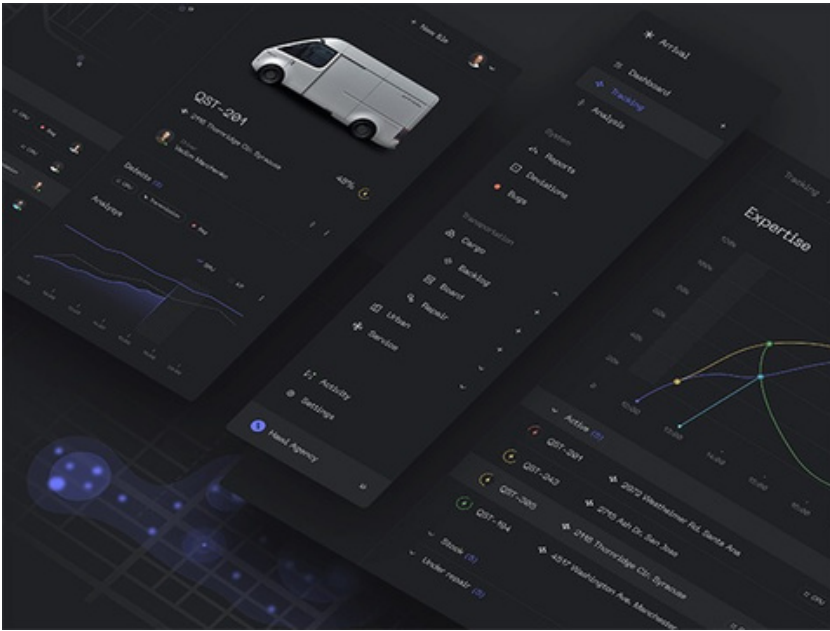

The image displays a website design for a real estate construction company, dedicated to fulfilling clients' dreams of building luxurious homes. The main headline, "We'll build the house of your Dream," reflects the company's commitment to providing exceptional services. The design features a modern house, with details about available amenities such as a gym, parking, fireplace, swimming pool, and internet service. The website also offers room plans and dimensions with a photo gallery, helping clients visualize their future homes. Additionally, there is a call to action encouraging potential buyers to get in touch for more information about property purchases.

**A COMPREHENSIVE
APPLICATION FOR
GAMING AND SOCIAL
NETWORKING
.ENTHUSIASTS**

SITE DESCRIPTION

The image displays the design of an application tailored for gaming enthusiasts, combining social features with live game streaming.
